

REMARKS

Reconsideration is respectfully requested.

This supplemental amendment is presented to provide antecedent basis for "a metallic plate or a resin substrate" which appears at the end of claim 1, by deleting the word "and" and replacing it by --or—in line 4 of claim 1. This is in conformance with the original Claim 1.

Moreover, it is presented to make a minor change in claim 7 penultimate line [to change "and" to --which--.]

Respectfully submitted,

Marina V. Schneller
